

23/02/18 Reception Maths Home Learning

This week we have been learning to **subtract** numbers within 10.

Support: Help your child to count the pictures and write the number in the box below. Count how many you have to subtract and write it in the box below. Help your child find the total by crossing off the amount you have to subtract. Get real objects such as raisins or grapes so they can physically see how many they have in the beginning and how many they have to take away (eat) and the total of how many are left at the end.

Challenge: Create your own subtraction equation in the last box by drawing images and writing the numbers.
