

## 27/04/18 Reception Literacy Home Learning

**Support:** Help your child design a superhero vehicle. There are some examples above. Talk about features the vehicle or transport would need. What special accessories does it have? (telescope, super speed, flying).

Use cardboard boxes, paper and any junk modelling material you have at home to support.

**Challenge:** Write a few sentences to describe how your superhero vehicle works using conjunctions (and, because, if, also, but).
